RISK DISCLOSURE AND TERMS

PLEASE READ CAREFULLY

By clicking “I AGREE” below, you hereby acknowledge you understand, and agree to be bound by, the terms and provisions of this Disclaimer every time that you access, browse or use this website. You must understand that clicking “I AGREE” is the equivalent of you manually signing the Terms and Conditions. In addition, you must be 18 years of age or older to use this website.

www. theforexacademy.net (“website”) is an information and educational website owned and operated by **TheForexAcademy**, where we provide live and written content in regard to various facets of day trading to educate and inform our members.

I.

General Terms

Your use of any of the information or services provided by **TheForexAcademy**, on its websites, in its chat rooms, in any of its training rooms (physical or electronic), on its trading courses, on its mentoring programs, or otherwise, is entirely at your own risk. **THEFOREXACADEMY** is not a registered investment adviser or broker dealer, is not providing any individual trading or investment advice, nor is it making any recommendations regarding the purchase or sale of any security, including but not limited to stocks, bonds, commodities, futures contracts, Currencies, Cryptocurrencies or options. Likewise, **THEFOREXACADEMY** is not providing any investment, retirement, estate, tax or legal advice.

II.

Your Responsibility

The Company’s use of the terms “buy”, “sell”, “stop loss”, “alert”, “buy now”, or any other investment-related jargon is for instructional and training purposes only. Your use of any real currency to trade securities or make investment decisions is done entirely at **YOUR OWN RISK**. All market situations and outcomes presented by **THEFOREXACADEMY** are hypotheticals presented solely for training and educational purposes.

THEFOREXACADEMY is engaged in the business of providing trader education and attempts to demonstrate its training abilities through active, live-market analysis and

demonstrations, including but not limited to posting for its present and certain prospective students, on various platforms, depictions of anticipated market moves and targets in various time frames. **THEFOREXACADEMY** strictly prohibits you from using any of the information or market-related data it or others may post on its websites, in its chat rooms, in its training rooms, or otherwise, for actual live trading. You assume the entire risk and cost of your own trading or investment activities and are solely responsible for any and all financial, emotional or other gains and losses you experience, suffer or incur. All of your investment transactions are conducted in your sole discretion and are your sole responsibility. We strongly recommend you consult your own licensed and qualified business, financial, investment, tax, legal and other advisers before making any investment decisions.

III.

Information

Any information, educational materials, opinions, advice, guidance, direction or offers posted or said by any individual or entity on the Company's websites, in its chat rooms, in its training rooms, on its trading courses, or on its mentoring programs is to be construed as "public conversation" only. **THEFOREXACADEMY** makes no warranties that the trading methods or systems presented, discussed, shown or taught on its websites, in its chat rooms, in its training rooms, over the telephone, on its trading courses, on its mentoring programs, or otherwise, will result in profits or losses. The Company gives no assurances and make no warranties regarding the accuracy, truthfulness, timeliness, reliability or good faith of any material or information posted on its websites, in its chat rooms, in its training rooms, or otherwise. The information presented by the Company or others on the Company's platforms is for educational purposes only and is not intended to provide trading, financial, investment, tax, legal, or other advice. Please obtain and consult with your own licensed and qualified professional investment, financial, tax, legal, business, and other advisers prior to making any trade or investment decisions.

Information provided by the Company or others on its platforms does not constitute a solicitation by **THEFOREXACADEMY** or any other person, affiliate or entity, for the purchase or sale of any security, commodity, bond, futures contract or option of any kind. There is a very high degree of risk involved in any market, trading or investment activity and people can and often do lose money.

Past performance of any individual trader or result of any particular trades that are published, posted, discussed or taught on the website, in any of the chat rooms, in the training rooms, or over the telephone are not indicative of future returns of such trader or method trading. There is no guarantee that by following any particular trading style or technique you will achieve your desired results. Performance results have many inherent limitations, some of which are described below.

No representation is being made that any account or individual trader will or is likely to achieve profits or losses similar to those shown, described, posted, taught or discussed in the chat rooms, training rooms, courses or mentoring programs or over

the telephone. Frequently, there are large differences in individual trading results among traders, even those exposed to the same information and using the same or similar techniques. In addition, hypothetical trading does not involve financial risk and no hypothetical trading can completely account for the impact of financial risk in actual trading. For example, real financial risk can impair an individual investor's ability to withstand losses or adhere to a particular trading methodology, strategy or program in the face of trading losses. There are numerous other factors influencing the markets in general or which affect the implementation of any specific trading method, strategy or program which cannot be fully accounted for and which can, and often do, adversely affect actual trading results. The methodologies, indicators, strategies presented by **THEFOREXACADEMY**, and all other features of the Company's chat, training rooms, trading courses, and mentoring programs, are provided for informational, educational and demonstration purposes only and should not be construed as investment or trading advice. The analysts, instructors, posters and employees or affiliates of **THEFOREXACADEMY** may or may not hold positions in the financial instruments discussed or demonstrated at any given time in the chat or training rooms and the trades taught or trading examples given or used in the chat or training rooms may or may not be actually being traded by **THEFOREXACADEMY** or its officers, directors, employees or instructors: thus, all trades presented are hypothetical. You should not rely solely on the information taught, posted or discussed in the chat or training rooms in making any trade or investment decisions. Rather, you should use the information provided to you by **THEFOREXACADEMY** as an educational guide, and as a starting point, for your learning and understanding of the markets and for conducting additional independent research that will be necessary in order for you to form your own opinion regarding your own individual trading or investment strategies. Current users and future members of our website should not assume they can replicate any trades on the chatroom that are recommend or purchased by anyone, will be profitable or equal to corresponding past performance levels.
